

BREEDERS MEETING REPORT

The F.N.A.S breeders meeting held at Preston on 6/9/05 although not as well attended by other societies, as we would have expected, was still well attended. There were representatives from Merseyside and I be leave Sandgrounders who we thank for their attendance

There were 22 breeders' teams to be checked and one of our judges Barry Booker kindly did this prior to the start of meeting. We were also able to present 14 badges & bars 4 of which only qualified on the night (I don't think that has ever happened before).

Brian controlled the 3 subjects well and some interesting points were brought out, the format was again very successful and I would hope that we continue to run breeders meetings on this format. All the people I have spoke to say they enjoyed the meeting and would support another if we had one.

On behalf of the Preston society I would like to than Brian the F.N.A.S breeding officer, the other societies that bothered to attend. A big thank you to Liz Dean who put on a brilliant buffy, and not forgetting the committee for allowing us the funds to do it.

Thanks to every one else who attended.

Preston Breeding Officer
